Single-line slim line telephone with message waiting light

Highlights

- Single-line slim line phone
- Message waiting light/Dataport
- Available in White
- National account package pricing
- 16 phones per case

Standard Series

Designed for a wide range of home and commercial environments, Scitec industry standard telephones are available in single-line desk, wall, and slim line styles. In fact, Scitec is one of few remaining telephone manufacturers that continues to offer a complete line of industry standard models. Desk and wall models are available in Ash, Black, and Red. White is the standard color for slim line styles. Most standard models are available on the Scitec national account package pricing program, including free faceplates, speed dial key programming, and shipping in the Continental U.S. with minimum 50-phone orders.

Design

- Compact slim line design saves space and easily mounts to a bedrail
- Big-button lighted dial pad
