

TELEDEX®

SMALL IS THE NEW BIG.

THE TELEDEX E SERIES

Amazingly big on features, yet surprisingly small in size.

E100IP

In 1986 Teledex introduced the first hotel telephone with programmable guest service keys and a customizable faceplate area. Today, there are over 15 million Teledex phones in 125 countries around the world, soon to include our newest, the ultra-thin, ultra-stylish E Series.

E Series Telephones are available as corded and cordless phones, featuring a stunning new flat panel look along with in both single and two-line configurations. Features include high speed RJ45 access port, patented One-Touch™ message retrieval, configurable soft keys, large LCD screen for Caller ID and programming display, supports IEEE 802.1 p/g for quality of service/VLAN priority tagging.
