

DECT Cordless SERIES

Outstanding performance, with the freedom to move about the room.

Teledex iPhone cordless phones provide the ultimate in guest mobility in matching case designs as our other iPhone models. Utilizing the latest in DECT 6.0 technology, iPhone cordless won't interfere with common 2.4 GHz WiFi networks.

With superior clarity, range, security and battery life, Teledex DECT iPhones provide a real step up for any property that wants to deliver the very best for their guests. Available in 1.9 GHz and 1.8 GHz versions to enable worldwide deployment.

1.9 GHz Models

AC9100 series – Single-line

AC9200 series – Two-line

1.8 GHz Models

AC8100 series – Single-line

AC8200 series – Two-line

*Supports
multiple
handsets
within the
room!*
